

Features

- All models adopt silicon carbide(SIC) dual mechanical seals to ensure best seal effect and reduce abrasion from wastewater
- High oxygen transfer rate, BOD easy to remove from wastewater treatment.
- Mixing and stirring applications for uniform MLSS due to fine bubbles convention.

Motor Spec.

- 2P dry type motor, with overload protector.
- Insulation: F class.
- Protection: IP68.
- Frequency: 50Hz.
- Voltage: 1Phase(0.5~2HP); 3Phase(All models).

Parts and Materials List

Applications

- Oxygen aeration of wastewater for wastewater treatment. Oxygenated for aquaculture such as fish, shrimp farming or hydroponics applications.

Model Code

TOS-EAFJ-20(T)

No.	Parts	Std. Material
1	Cable	STOW or VCT
2	Cable hood	PVC
3	Handle	SS400
4	Motor cover	FC200
5	Seal housing	FC200
6	Bracket	FC200
7	Oil chamber	FC200
8	Pump casing	FC200
9	Impeller	FC200
10	Nut	SUS304
11	Mech. seal	SIC/SIC
12	Oil seal	NBR
13	Bearing	(NTN brand)
14	Overload protector	(T.I.brand)
15	Shaft	SUS410
16	Motor housing	FC200
17	Ejector-Mix chamber	FC200
18	Ejector-Diffuser	FC200
